Peace of Mind at Holiday Time

Sam Blowes – Director of IT

Jason Monroe – Director of Solution Consulting

Using public wi-fi

❖ Use virtual private network (VPN) software

❖ Refrain from accessing critical, secure information

❖ Watch for screen snipers

❖ Don't use USB power outlets

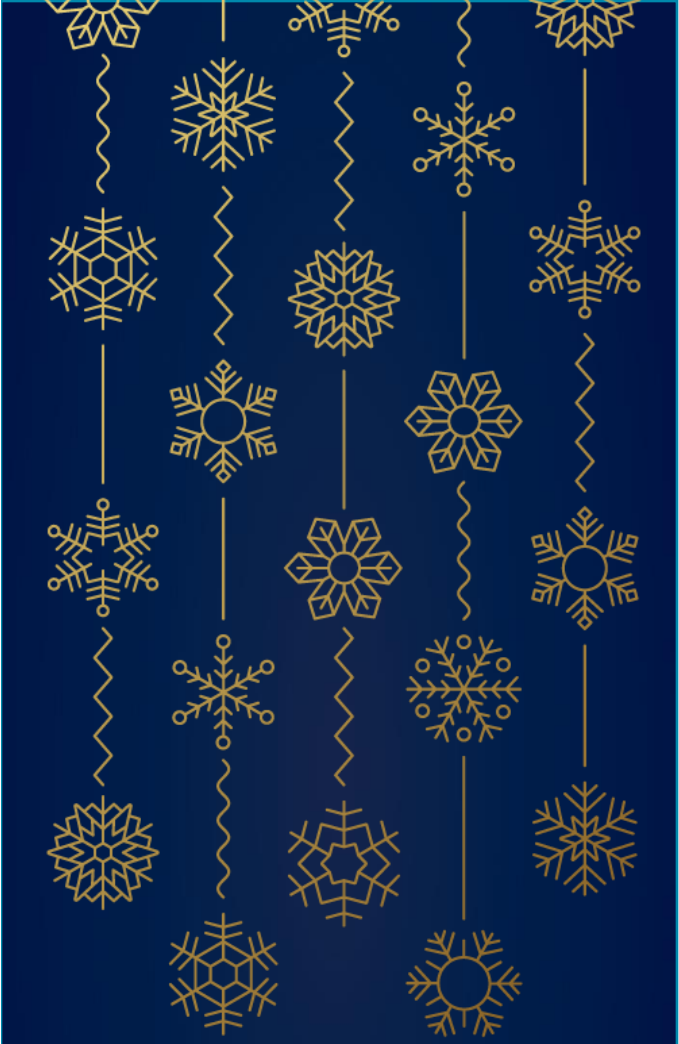

Don't let your guard down! Stay safe and VPN!

BIT WIZARDS

Staying vigilant

Malware increases during the holiday season...

❖ Use your business computer for business *only*

❖ Check links before clicking on them

❖ Don't open attachments you're not expecting

❖ Use credit cards (instead of debit cards) for online shopping

❖ Stay backed up

❖ Don't connect to networks you're not familiar with

Stay on guard!

BIT WIZARDS

Working remotely

❖ Use VPN software

❖ Use Office 365 productivity suite or other options
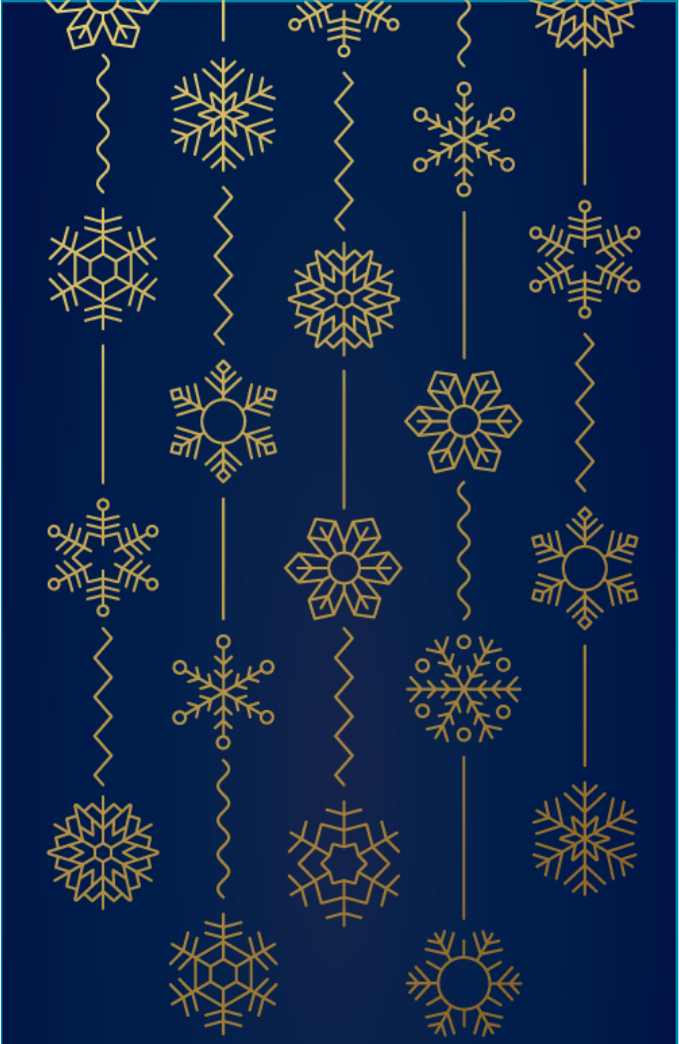

❖ Save your work in your cloud drive

Work smarter, not harder!

Support while traveling

❖ Bit-Wizards is ready to help

❖ We'll keep your devices updated and backed up in case the Grinch shows up

❖ Our engineers are here to support your business needs no matter what

The magic continues all holiday season long with the Bit-Wizards Managed IT Services team!
